Professional Summary

Motivated Java Developer with strong knowledge of Java and MySQL. Experienced in developing software applications, debugging, and writing efficient, maintainable code. Skilled in backend development, database management, and problem-solving with solid Data Structures and Algorithms knowledge. Passionate about building scalable and high-quality software solutions.

Technical Skills

- Programming Languages: Java, Python, JavaScript
- Database: MySQL, MongoDB
- Web Technologies: HTML, CSS, React.js, Node.js
- Tools & Technologies: Git, GitHub, Firebase, Docker, TensorFlow, REST APIs, CNN, Numpy, OpenCV, Flask
- Core Concepts: OOP, Data Structures, Algorithms, DBMS

Projects

AI-Driven Bone Cancer Detection Web Application

- Developed a web application using deep learning to detect bone cancer from X-ray images.
- Built backend logic for image processing and prediction.
- Implemented efficient data handling and result display.

Automated Invoice Processing & Data Extraction System

- Developed a full-stack invoice processing application with backend logic for data validation, storage, and retrieval using RESTful APIs.
- Implemented database operations using relational database concepts (MySQL-based structure) to ensure efficient and secure data management.
- Built an integrated frontend and backend system to automate invoice analysis, demonstrating strong skills in Java backend development and debugging.

Education

K.S Institute of Technology, Bengaluru, Karnataka **December 2022 - June 2026**
(Expected) Bachelor of Science in Computer Science and Engineering (GPA: 8.2 / 10.0)

VishwaChetana PU College, Davangere, Karnataka **July 2020 - April 2022**
Science (PCMB) (Percentage: 94.33%)

S.F.S High School, Kuknoor, Karnataka **June 2019 - June 2020**
High-School (Percentage: 87.84%)
